# THE SNAP-ON® CLOUD

## With Wi-Fi and a Snap-on tool, automatically upload images and vehicle system reports in the Snap-on Cloud via altusdrive.com

### CAPTURE

- **Capture and auto-load reports:** With the most current Snap-on software loaded on your tool, capture your pre-scan and post-scan vehicle system reports on your ZEUS™, VERUS® Edge, MODIS Edge™ or SOLUS Edge™
- **Image storage for ZEUS, VERUS Edge and Diagnostic Thermal Imager Elite:** Take pictures and screenshots with ZEUS or VERUS Edge, create images with the Diagnostic Thermal Imager Elite and store them all in the cloud
- **Direct linking:** Create permanent links that take you directly to the saved image or vehicle system report that you can add to and access from your workshop management software

### CATEGORISE

- **Mark files:** Identify images as 'KNOWN GOOD' or 'KNOWN BAD'
- **Tag files:** File tagging makes keyword search fast for future reference
- **Get files:** By customer name, VIN or sort by date allowing for easy retrieval

### COLLABORATE

- **Compare and share:** Use with others to facilitate diagnosis and repair
- **Be the expert:** Share 'KNOWN GOOD' or 'KNOWN BAD' images with other technicians

### COMMUNICATE

- **My Network:** Add up to 20 contacts, easily share files with your colleagues and contacts
- **Flexible sharing:** Communicate pre-scan and post-scan vehicle system reports and images via text or email
- **Speed it up:** Share your pre-scan vehicle system reports and images with customers to receive quick approvals for repairs and post-scan vehicle system reports with insurance companies to confirm manufacturer repair requirements have been met

## The importance of pre-scan and post-scan reports

- Performing a pre-scan vehicle system report spots any hidden issues and makes the customer aware of problems. The pre-scan code identification speeds up the diagnosis and repair
- When the customer picks up their vehicle the post-scan vehicle system report may be given to them to confirm that problems have been fixed, aiding in customer satisfaction

# INTELLIGENT DIAGNOSTICS SOFTWARE

## Comprehensive enough to provide all the diagnostic and repair tips you need, smart enough to skip the ones you don't!

All the functions and repair tips you need to diagnose, repair and manage any issue. But unlike any software before, it practically anticipates your next move by guiding you through every step needed to find the solution, while avoiding the steps you don't.

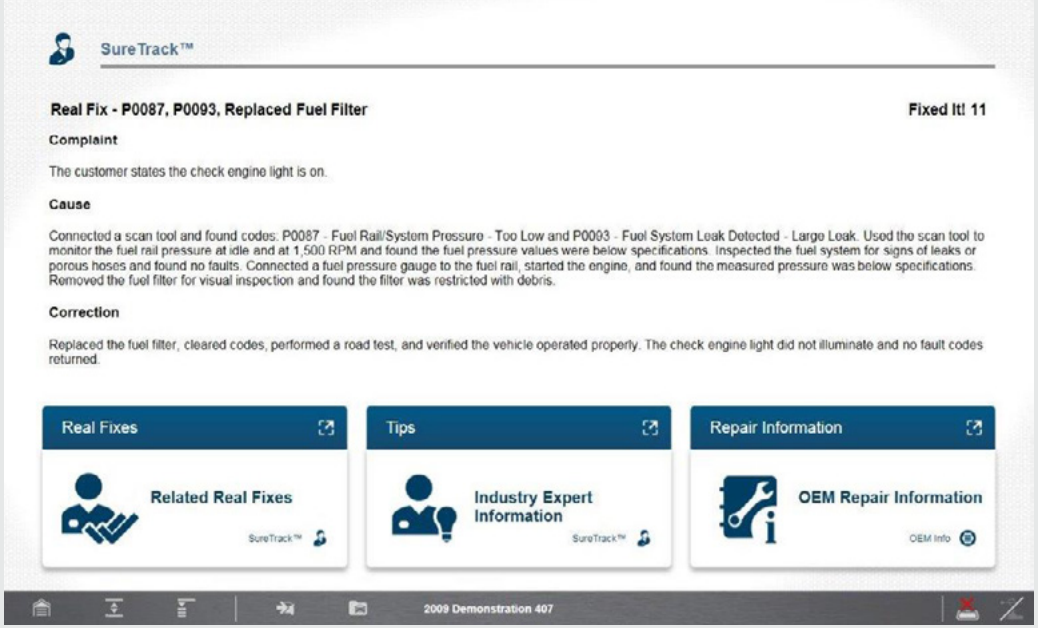
It displays only the information that's relevant to the specific vehicle and fault code. From Technical Service Bulletins and scanner Smart Data to SureTrack™ Expert Information and ever increasing monthly coverage, Intelligent Diagnostics is the most sophisticated and intuitive software we've ever created.

Accessing all the Intelligent Diagnostics functions requires a software agreement or subscription program enrolment.

See Diagnostic Tool Comparison for eligible tools.

## The fastest path to fixed

SureTrack expert information is integrated in the tool with a current Snap-on software upgrade. Simply connect the diagnostic platform to Wi-Fi to get Real Fixes and verified parts replacement records harvested from millions of actual repair orders.



# Over 6 Million SureTrack™ Real Fixes!

**New content is continually added and with the latest software you instantly access:**

- Verified parts replacement records showing successful fixes
- Expert information hot-linked directly from diagnostic trouble codes
- Exclusive insight based on experience from millions of repair orders
- Vehicle-specific fixes based on symptoms, codes and mileage
- Definitive, reliable answers, validated by SureTrack expert technicians

# SOFTWARE SUBSCRIPTION

## Save money on subscripton

Take out a subscription plan and save approximately 30% in comparison to paying outright for your software. Spread the cost via monthly direct debit, and not only can you download your own software at each release, but you'll have continued access to the latest content, including SureTrack™, TSBs and Snap-on Information System (qualifying platforms only).

## Can you afford to turn work away?

Skip an update and it could cost you more than you think. Invest in software and make sure your business has the information it needs to make repairs and finish the job.

## It pays to invest in software

Snap-on spends time with technicians to understand what you are working on – so you'll find that each new software upgrade will always have coverage that is valuable to you.

So, whether you need coverage for driveability, undercar, transmission, diesel or body control, our latest software release offers advanced technology to help you diagnose problems and find solutions.

**To find out more, talk to your local Snap-on Tools Franchisee or contact the Subscription Team on 01536 413825 (Option 1) or kettsubscriptions@snapon.com**

## Vehicle system report with the Snap-on cloud

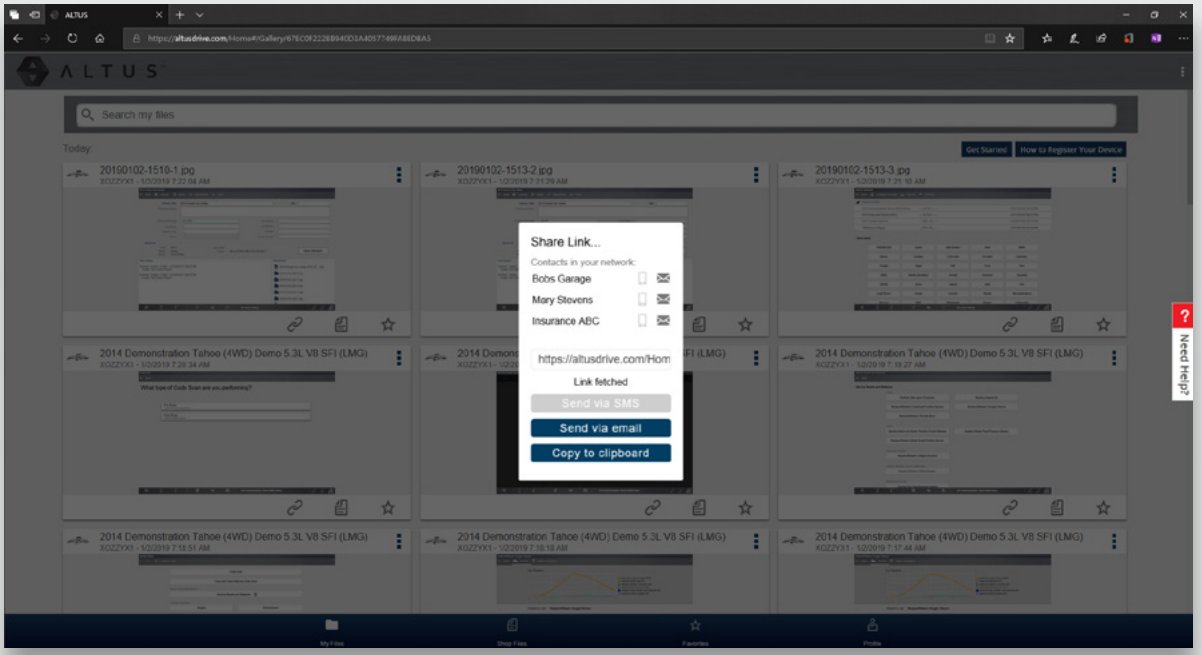
With current software and a Wi-Fi connection, your tool automatically uploads each pre-scan and post-scan vehicle system report to the Snap-on cloud. Reports are accessible from a phone or computer whenever needed.

If you are looking for that direct connection to customers you will love the Snap-on cloud because you can share pre-scan reports by text or email and get your customers' go ahead for repairs quickly.

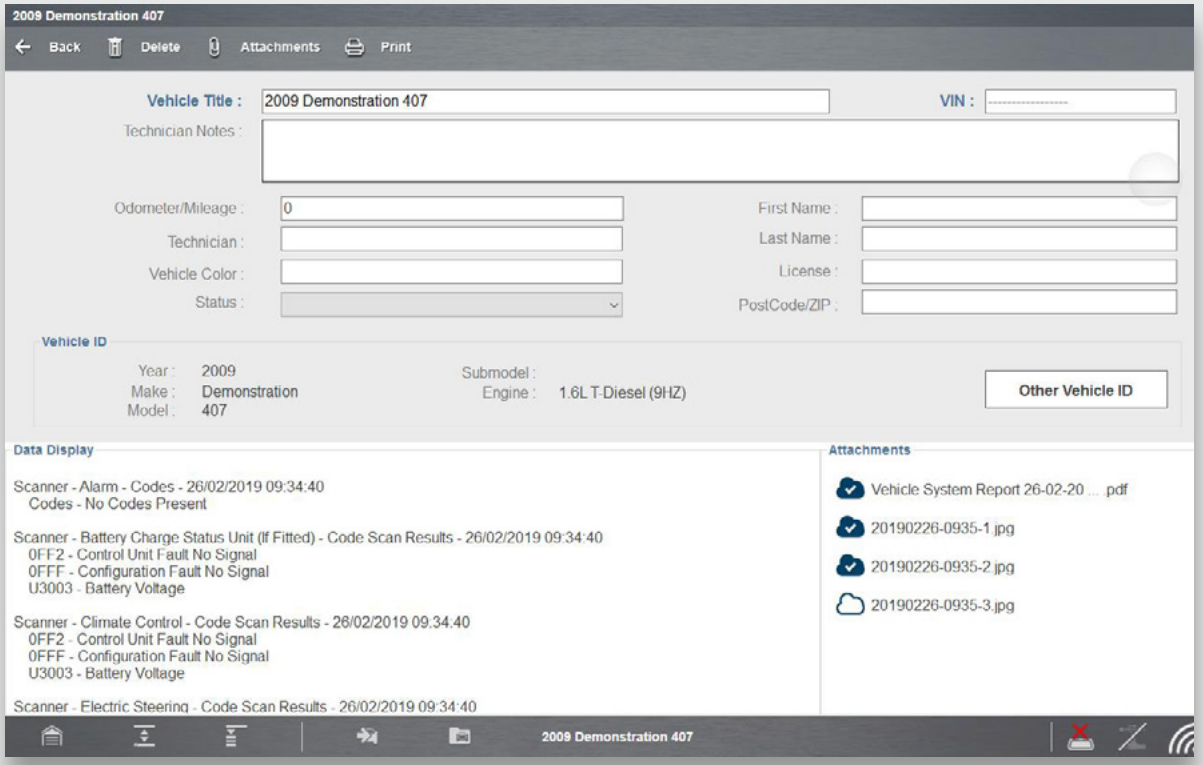
Available with ZEUS™, VERUS® Edge, MODIS Edge™ and SOLUS Edge™

## Via altusdrive.com

- **Guided Tutorials** help you to navigate the registration process and to start using all the tools
- **My Network** creates a convenient way to store and easily trade files with your regular contacts
- Now, you can embed cloud file **permanent links** into shop management repair orders
- Contemporary and friendly **desktop view**
- **Quick Search** shows recently uploaded files first in keyword box
- **Quick Tagging** in the keyword box allows you fast tagging so you can find them later
- Pre-loaded file examples to help you



## ZEUS™ and VERUS® Edge platforms

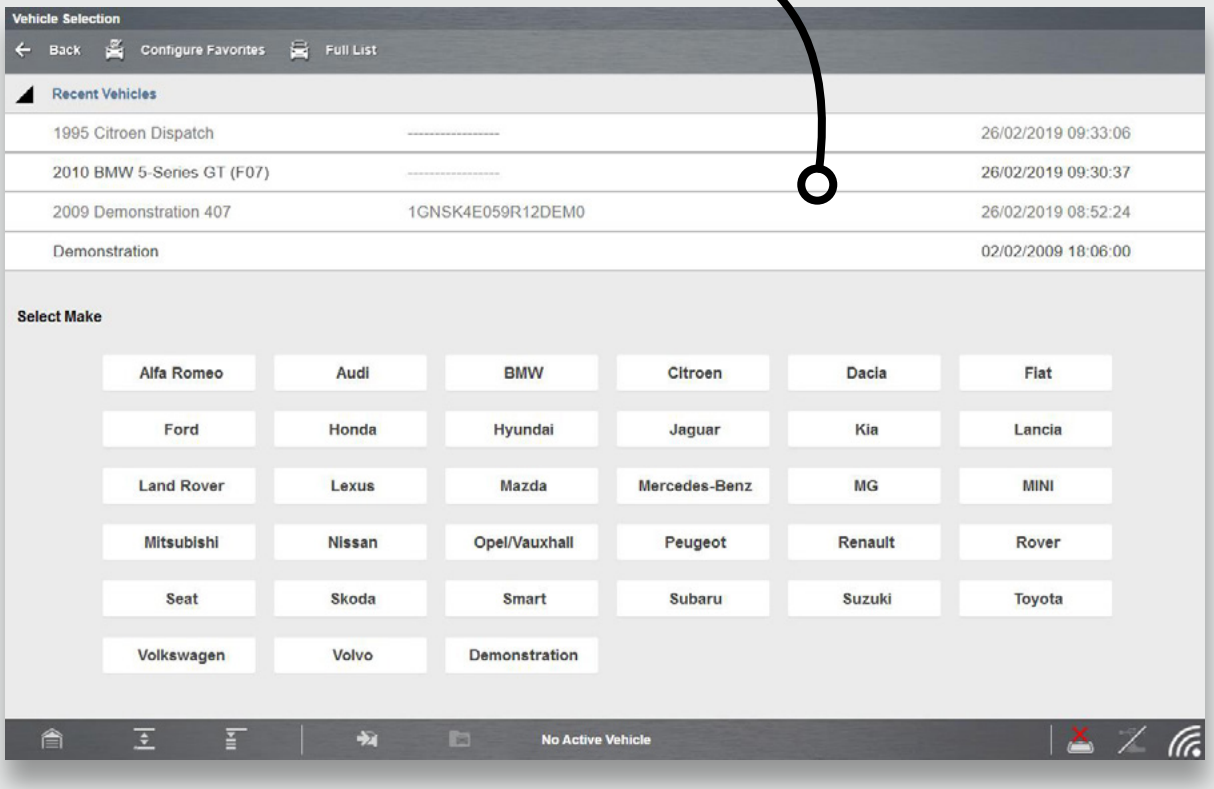


**Enhanced File Attachments**
Screenshots and photos saved will automatically attach to the vehicle record so you can find them quickly and easily

# ZEUS™ and VERUS® Edge platforms

## QUICKLY RE-IDENTIFY THE VEHICLE

The last 4 vehicles scanned will appear at the top of the list so that you can quickly re-identify a vehicle to perform a post-scan or relearn to complete the job



## ZEUS™ and VERUS® Edge platforms

*Component Test Meter (CTM)*

## New Case Studies

### Peugeot 207

- No engine start and communication faults
- Communication fault on high speed CAN bus, resulting in network failure

### Audi A3

- Windscreen wipers inoperative
- Communication fault on LIN bus due to faulty CEM

## New How To Classes

### Evaporative emissions diagnosis class

Some European manufacturers are now utilising an evaporative emissions leak detection system into their vehicles. This class provides the learner with an understanding of the purpose and operation of such systems.

### Electronically controlled transmission class

Modern electronically controlled automatic transmissions have become so efficient, that improvements in fuel economy, exhaust emissions and performance have far exceeded expectation. However fault diagnosis can be made more difficult due to the nature of power flow through the torque converter and transmission assembly.

### Driver assistance technology class

With such an emphasis on all aspects of vehicle related safety, manufacturers have developed many new systems and technologies. This class is designed to prepare vehicle technicians for even the most advanced repairs and calibrations, which are required on vehicles with ADAS technology.

**WE NOW HAVE 22**
VEHICLE SPECIFIC CASE STUDIES
AND 51 'HOW TO' CLASSES

## Onboard capabilities**

- Powerful **bi-directional control, plus scripted functional tests** to automatically run through multi-step tests in no time
- **Instant ID** means vehicles will identify themselves to the scan tool automatically, saving time and eliminating entry errors
- **One-Touch Code Scan** for a quick and complete health check of all available systems, plus clear codes with one touch, saving time and preventing comebacks
- The **Vehicle System Report** offers results for available systems plus Global OBD-II codes and Readiness Monitors for a more complete view of vehicle systems. Great for pre-scan and post-scan reporting to customers and insurance companies
- Access to the **Snap-on cloud** for up-to-the-second online storage. Archive, reference, retrieve and communicate vehicle system reports, thermal images and more to customers, colleagues, and insurance companies
- Exclusive **Guided Component Tests**** show how to test, where to connect and what results to look for
- **Component Test Meter (CTM) Training** including How To's and vehicle specific case studies
- Exclusive access to **SureTrack™**, providing Real Fixes and verified parts replacement records from millions of successful repair orders
- **Intelligent Diagnostics** is software that guides users through every step needed to find the solution, while avoiding the steps they don't, displaying only relevant information to the specific vehicle and fault code. It includes Smart Data, released continuously before, during and after every software release

**Eligible platforms only. See features at-a-glance **HERE**

# YOU CAN'T AFFORD NOT TO UPGRADE!
